Privacy, Nature and Architecture in a Residence Designed for an Extraordinary Life. The project comprises a private collection of just 17 residences within Bosco Di Santa María. Only 11 residences currently remain available, offering a rare opportunity to become part of a residential community designed around privacy, well-being, and an authentic connection with nature. ARCHITECTURE & SPACES This exceptional single-family residence offers 758.78 m² of total built area, including 477.18 m² of interior spaces and 281.60 m² of open areas, with terraces and outdoor spaces thoughtfully designed to connect indoor living with the surrounding natural environment. The residence features 4 bedrooms, a family/study room, 4.5 bathrooms, a private swimming pool, and parking spaces. The architecture balances privacy and openness, incorporating natural light, greenery, and warm materials to create spaces that flow naturally into the surrounding landscape. Investment from US$2,454,792 LIFESTYLE & WELL-BEING Enjoy an environment designed around well-being and outdoor living, with access to:
